

Mixed DOUBLETTES: Thailand pulled out the victory

the test in mixed doublettes had made the full of countries engaged in Petanque to SEA Games, with 9 teams, which has forced the organization to put in place a group of 4, with three towers and three meetings, and a group of 5 with five towers and four meetings, all in a limited time to an hour and possibly two additional phenomena if none of the two teams has reached 13 points. For a question of equality all teams have played their last qualifying round on the morning of the second day to 8 hours before the half-finals.

In the group has the Thailand, with the one who is without doubt the best player currently Thai, Sarawat Sriboonpeng, won its three meetings by not cashing in everything and for everything that 4 points. Behind it The Cambodia provided the second place against the Philippines, the crucial part is being played the eve against Indonesia, at the end of a bitter part which is not gone to his term the Cambodia The dominating during the Second Additional leads by 11 to 9.

In the Group B Laos has almost made the full during the qualifying parties the first day with three wins but a surprise defeat in the face of Myanmar by 11 to 12! Its players were therefore that spectators to attend the qualification of Malaysia with a third success against Singapore despite the victory of the Vietnam against the Myanmar. Again the decisive part was played the Eve, when Malaysia had prevailed in the second tower against the Vietnam 10 to 9, at the end of the pending and in the last additional leads, before a supercharged public, encouraging and singing, but always silent at the time where the opponents played, thus giving a beautiful lesson of sportsmanship,

Malaysians should not be submitted at the time of their semi-final against Thailand which has been a long calvary with a quick defeat 13-2.

This has not been the case in the other semi-final, where, after a departure canon of the Cambodia which led quickly 5-0, Laos has taken the lead up to 7-5 thanks to the performance at the time of their shooter which multiplied the tiles and their spot welder which dominated its rival and do lacked any of the few balls that she had to draw, in particular with two keystrokes for one leads of 4 points. The Cambodians are not left shoot down, having understood, in the following leads where he had lost three times the point, that it was necessary to point the Laotian shooter. Successful operation to pass in front of 8 to 7 and then climb to 12 thanks to two keystrokes of the Cambodian spot welder but a single tile while a second their would ensure the wins.

This was only part discount because, in the following leads, after the first ball lost by the spot welder Laotian, three times of the spot welder Laotian, three strikes "simple" of the Cambodian shooter, a resumption of the Laotian

shooter but a tile of the Cambodian spot welder, the drawer of the Laos did not resume with its second and then drew the tile, leaving a good square meter to the spot welder of Cambodia which was not lacking the opportunity before the eyes delighted by the Friend of the Chairman Azéma, the Secretary of State for Sports of Cambodia, MR BOU Chumserey, and the Secretary General of the NOC of the country.

The time for the two teams to warm up and to evacuate the stress during a first leads average during which the Cambodia part the first two points. Then, its spot welder being clearly dominated by the Cambodia, the Thai shooter multiplied strikes and tiles for take the head and then limit the broken. They égalisaient In a first time then detached after a hole of the Cambodian shooter and three magnificent additions to 6-2. They remained in 6 while in three phenomena The Cambodians reproduced the head to 8-8 only can we say, the Thai shooter having hit 7 balls on 8 drawn with 4 tiles, the sixth leads even led the Cambodians point six times and the Thai spot welder add its two keystrokes to those of his shooter but in vain.

It should be noted that before the ceremony of the medals all the players and all the players gathered on the ground behind a banner Sports boules 2024 carried out to this effect, to make the photo of support to the candidacy of balls for the Olympic Games.

Results:
